Upcoming Events

As we quickly approach the end of the year, we want to highlight the remaining two events that will be held this year and encourage people to attend for what is sure to be a great networking and educational event.

GSK and Zoetis have generously agreed to open their doors and allow ISPE Midwest Chapter members to come in and tour their Lincoln facilities. We are excited to bring this event to our members and think it will be an informative and beneficial two days. In addition to the tours, we will be hosting a chapter dinner and meeting the evening of Wednesday, November 2 Lazlo's in the Historic Haymarket. You'll have the opportunity to visit with fellow chapter members, meet the board, and give us your input on what types of events and presentations you'd like to see and hear from the chapter in 2017.

The final event of the year will be a dinner event with educational topic with location and topic to be determined. We are looking for speakers for this event as well as any future events within the Midwest Chapter. If you have suggestions or want to be part of the December event or future events, please reach out to any of the officers or board members.

Thank you for your support of the ISPE Midwest Chapter and we hope to see you next week!

The Pillars of Project Management

A Presentation by Andy Olson

*Director, Minneapolis Operations
Integrated Project Management Company, Inc.*

ISPE Midwest hosted a chapter event and dinner on July 26 in Minneapolis. We partnered with Upsher-Smith Labs to host the event at their facility. Andy Olson with Integrated Project Management gave a great and informative presentation on the Pillars of Project Management. These pillars included: Risk Management, Scope Change Management, Planning & Critical Path, and Communications Management. Attendees also gained insight to the growth in the biotech and pharma industries in Minnesota from Frank Jaskulke with Medical Alley Association. After the presentations, members enjoyed dinner and networking with colleagues.
